THE DEBUT OF, STINGAREE.

Miss Bonverle, a companion to Mrs Clarkson on an Australian ranch, ceases singleg when a dapper young man walks into the rauch house. Ite politely hids her slug more, while he plays. Her volce receives bis highest commendation. Before leaving he promisas to be at Mrs. Clarkson's concert, which Sir Julian Crum, the celebrated Eaglish mustcal authority, is to attend. in due course the great night came around, but Hilda Houverie looked for her bero in vain. Mrs. Clarkson and some of the others had done their part when Stinguree appeared on the stage leveling a brace of revolvers at the as-He instroutingly requests Mrs. Clarkson to slug. A revolver is passed unobserved to Hilda by the stution overseer. At the assembly Itilda recognizes her hero. Stingaree lusinaatingly requests Mrs. Clarkson to slug again. She refuses. He then calls Hilda, and Sir Julian is forced to play for her. Sir Julian is surprised at the quality of Hildu's voice and offers to make a career for her.

Oswald Melvin, youthful son of a widaw, keeper of a noisic shop, worshiped Stingaree to a dangerous de gree. The story of a customer plays on the boy's imagination. The customer proves ta be Stingarce, who on a sec end visit promises the boy's mother fears Oswald land come worst, to save the foolish youth from his villain worshiping. Stinguree thids Oswald on the main road, and the bandit gives him an exhibition of the risks of "sticking up" a stage coach while the hoy to hiding admiringly

He had a wakened to find blusself not nly dellelously notorious, but actually more of a man thun in his heart of hearts he had dured to hope. The tenacity and consistency of his pose were alike remarkable. Even in the over-weening cause of egoism he had never shown so much character in his life. Yet he shuddered to realize that, given the usual time for reflection before his great moment, that moment might have proved as mean as many another when the spirit had been while and the fiest water. There was, in thie, but one feature of the affair which even Os would Melvin, drunk with notoriety and secretly sanguine of a nominal paulshment, rould not contemplate with ab-solute satisfaction. But that feature followed the others into the papers which kept him intoxicated. And a hundle of these papers found their adventurous way to the latest fastness of Stingaree to the mailee.

The real villain dropped his eye glass, clupped It lu agalu and did his best to crack it with his stare. Stu-dent of character as he was, he could not have conceived suct a development a character. Ite sorted the papers for the latest of all-a stuful publicum saved them for him-and thereby read that Oswald Melvin had been committed for trial and that his only concern was for the condition of his mother, which was still unchanged and had seemed lutterly to distress the prisoner very much.

"l'il distress bini!" roured Stingared to the malice. "I'll distress him if we change places for it!"

Riding all night and as much as be dared by day, it was some hundred hours before be pald tils Hilrd and last visit to the Melvins' music shop. He rode boidly to the door, but he rode n plebald mare not to be confused in the most suspicious mind with the no more conspicious Garmaid. "One of the most unplensant features of a seanter's life is the attention which is demanded for matters of comparatively small importance and the neglect of questions which should be of chiefest interest to all the people. It would seem at times as if there were a more eager laterest in appointments to postoffices than in great policies which have to do with the general welfare. I have steadfast-ly refused to permit the minor questions of patronage to distract my attention from the larger problems which face the American people and for which t have a right to believe I was elected to represent Oldo.

GRAIN OR STOCK?

The grain crop is a Hability. the cattle crop an asset. This is the way E. H. Webster, dean of the Kaasus Agricultural college computes the grain and stock rulsing. It may seem a little severe, but an analysis of the two will bear out the statement. Grain furming reduces the fertility. Stock rulsing increases it. Grain farming reduces the humus in the soil. Stock rulsing increases it. Grain farming spediscthe mechanical condition of the soil. Stock raising haproves it. Grain raising festers weeds, plant illsenses rects, null stock raising decreases them. Grain raising results in decreased yields. Stock raising develops tirift. you go, Grain raising develops the credit system. Grain raising forlugs the mortgage. Stock rulsing pays it off. The labor for grain raising is expensive. SELECTING SEED POTATOES.

Dapends Upon Farmer Whather Crop Improvea or Daterioratoa.

It is a common impression among potato growers that where any variety is grown year after year on the same farm the potatoes gradually diminish in size and in production per acre, er, as is often described, they "run out." As a matter of common observation this is true, writes H. B. Coglon, Iduho seed commissioner, and an attempt is made to remedy the difficulty by securing seed polatoes from a distant source, often from seed merchanis, at beginning to realize that the cause is not so unich in the variety of polutoes as II is in the variety of farmer.

The season was an nufortumete one, and those having the work in charge did not at first realize that it was not only a matter of growing and hurvesting a crop, but also a matter of incumberturing the crop into a murketable commodity. Nevertheless, the club marks the beginning and a very good beginning at that.

One strong teacher at a small, dilaptdated schoolkonse ten miles from the city was the prime factor in this begluning. The second factor was a strong mother who had the ability to see and understand the educational value of the work for her child. That child was Mary Hogers, whose clear gray eyes spell an ability to hold fast to wimt she undertakes.

"Yea; it was awfully hot part of last nummer," she replied to the questions put to her, "but I lead made up my mind to win if I could.

"Lots and lots of my tomatoes rot-ted because of the rain," she continned, "and then we ate a great many too.
